Republic of China, Plurinational State of Bolivia, Republic of Chad, Republic of Colombia, Republic of Cuba, Republic of Haiti, Republic of India, Republic of Indonesia, Republic of Italy, Republic of Kenya, Republic of Korea, Republic of Panama, Republic of Tunisia, State of Israel, State of Qatar, United Arab Emirates, United Kingdom of Britain and Northern Ireland, United States of America

Affirming that malnutrition is so severe that permanent damage is done to the body,

Recognizing that malnutrition is the number one disease people of all ages die from,

Noting with regret that children are especially vulnerable because they are growing,

Alarmed by the amount of people that don't have enough money to buy any food, healthy or unhealthy,

Observing that there is enough food in the world for everyone, yet many people don't get enough to survive,

1. Calls upon nations with surplus of seeds to donate them to other countries;
2. Further requests volunteers to teach people how to farm;
3. Recommends that more nutritious food is provided;
4. Encourages volunteers to provide education about threat of malnutrition;

Resolution FAO/1.1

5. Recommends having radios that are cheap and durable so that farmers can be warned of approaching storms to protect their crops;
6. Calls upon sending volunteers to countries in need that will give food and medical assistance;
7. Recommends forming organizations that take food directly to people with extreme poverty;
8. Supports seeking and tracking places where malnourished people live;
9. Requests that more educational facilities be built so people will be able to get jobs and money for their families;
10. Approves making more hospitals in poorer areas so they get proper health care;
11. Endorses mission groups to help raise money and teach people how to get nutritious foods;
12. Encourages the transportation of vitamins to countries that need them;
13. Endorses food drives to export food to all those effected by malnutrition;
14. Calls upon builders to construct greenhouses in the desert to provide food;
15. Requests the creation of an NGO called "Keep the Children Healthy" to provide food and resources for children in need.
