

United Nations Entity for Gender Equality and the Empowerment of Women

Topic: Reducing Child Mortality

Co-Sponsors: Bolivarian Republic of Venezuela, Bosnia and Herzegovina, Canada, Commonwealth of Australia, Dominican Republic, Federal Democratic Republic of Ethiopia, Federal Republic of Nigeria, Federal Republic of Somalia, Federative Republic of Brazil, Grand Duchy of Luxembourg, Islamic Republic

of Pakistan, Japan, Kingdom of Belgium, Kingdom of Lesotho, Kingdom of Norway, Kingdom of Saudi Arabia, Kingdom of Spain, Libya, Oriental Republic of Uruguay, People's Republic of Bangladesh, People's Republic of China, Republic of Cuba, Republic of Angola, Republic of Argentina, Republic of Colombia, Republic of Congo, Republic of Finland, Republic of France, Republic of India, Republic of Indonesia, Republic of Italy, Republic of Kazakhstan, Republic of Korea, Republic of Malawi, Republic of Peru, Republic of South Africa, Republic of Togo, Russian Federation, Swiss Confederation, United Arab Emirates, United Kingdom of Great Britain and Northern Ireland, United Mexican States, United Republic of Tanzania, United States of America

Alarmed by the fact over 740 million people do not have access to clean water which directly affects the health an unborn child and also by the fact that women are forced to carry the unsanitary water which affects their quality of life,

Emphasizing the importance of children's health,

Fully aware children four to five should learn about proper sanitation,

Recognizing the causes of child mortality: malnutrition, preventable diseases, lack of sanitation, and pre-mature pregnancy and birth,

Believing that we can achieve Millennium Development Goal 4, Reducing Child Mortality,

1. Approves of sending doctors and medications to underdeveloped countries by funding related organizations
2. Supports creating new NGO's that will help eradicate child mortality and provide beneficial education for mothers
3. Further recommends creating mobile NGO's that will provide vaccinations for children living in underdeveloped countries;
4. Further invited the providing of "Life Saver Bottles", water filters that can filter bacteria, viruses, and other pathological diseases;
5. Strongly condemns the usage of the "Maternity Box" which is an effective box that contains valuable objects for mothers with child care;
6. Recommends countries to open affordable and accessible clinics and hospitals
7. Further requests countries to ask medical/college students to volunteer in the less developed places which need medical help
8. Further recommends starting drives to donate resources to countries with high child mortality rates;
9. Calls upon countries to donate mosquito nets to families that are exposed to malaria carrying insects
