Topic: Prohibition of the dumping of radioactive wastes

Taking note of the events of Chernobyl, Russia, the meltdown of Fukushima, Japan, and the effects of radioactive waste,

Bearing in mind what happened when the United States dumped nuclear waste into the ocean,

Alarmed by the danger of badly maintained nuclear power plants,

Taking into the account that after the bombing of Hiroshima and Nagasaki, radiation made the cities uninhabitable for years,

Fully alarmed by the disposal of radioactive waste in our waters, lands, and outer space,

Keeping in mind that nuclear/radioactive waste has been used inappropriately,

Taking into account that the dumping of radioactive waste must be stopped,

1. Approves of turning nuclear waste into glass;
2. Further requests to restrict the code and number of nuclear power plants;
3. Further recommends putting nuclear power plants in remote areas;
4. Further requests to guard nuclear waste and nuclear power plants to avoid terrorist interventions;

5. Calls upon countries to decrease the mining of nuclear materials;
6. Recommends that new affordable energy should replace nuclear energy;
7. Reaffirms that countries who have signed the treaty should check each other if they are using nuclear power in a bad way;
8. Strongly recommends that the UN should fund to establish several non-governmental organizations to strengthen the monitoring of the waste dumping.
