### Topic: Food Security

Approving of the progress made by the UN's Sustainable Development Goals,

Deeply concerned by the lack of food and water for people in impoverished regions,

Gravely disturbed by improper food distribution to those in need,

Alarmed by the COVID-19 Pandemic and the rise in food insecurity and poverty due to it and independent of it,

Deeply alarmed by the fact that our environment is affecting the crops and our farm animals are affecting climate change,

Expressing the negative impacts climate change has on food security,

Bearing in mind the recent pandemic has caused many people to lose jobs and money, taking away their direct source to fresh food and clean water,

Having heard the information given by the countries in the FAO, we believe we must take immediate action to secure fresh food and water for countries that are in need,

1. Endorses education to bring awareness to agricultural issues;
  - a. Further reminds that this will help reduce pesticide use, encourage sustainability, help reduce food waste, and teach the benefits of crop diversity;
  - b. Notes that this may help people get educated about food insecurity and will encourage them to do something about it as well;
  - c. Supports sustainable farming practices in their countries, as, only by sustainable development, will the world be able to move forward into the future;
2. Improves the economical aids from ~~the~~ developed country to ~~the~~ developing country;
